Website: sumanyuj.com

PROJECTS:

Personal Website:

- Built a personal website using HTML, CSS and JavaScript, showcasing myself through my blog, resume, and unique UI style. This taught me the basics of creating static web applications, and managing my own web server. The project is hosted on NameCheap and utilizes basic testing and git to validate all changes to ensure they are effective and operational before they are applied to the site.

EDUCATION:

University at Buffalo, Buffalo, NY

Bachelors of Science, Computer Science, August 2022-Present

- 3.949 Cumulative GPA
- Selected Coursework: Intro to Programming I and II (Python and Java, respectively).

EXPERIENCE:

Undergraduate Teaching Assistant (UTA)

University at Buffalo, Buffalo, NY, August 2023 – Present

SKILLS:

Coding: Python, Java, JavaScript, HTML, CSS, C

Technologies/Environment: Windows, Linux, MySQL
